District Construction Projects  
Near Completion, On Budget

By DOMINICK BONNY

Grant Elementary's expansion and renovation is one of six construction projects nearing completion in the Eastmont School District. The projects were funded in part by the capital levy approved by voters in 2016 and a \$10 million grant. All projects are currently on time and on budget.

Over the course of a year that presented many challenges, the Eastmont Maintenance Department seized the opportunity to complete important construction projects that are sure to impact the entire Eastmont community, said Seann Tanner, Eastmont's Director of Maintenance Services.

In fact, Tanner said he expects the work on Grant, Lee and Rock Island elementary schools to be completed this summer.

"Everything is on track to be completed by July," Tanner said. "All three of those sites will be extremely busy through the summer."

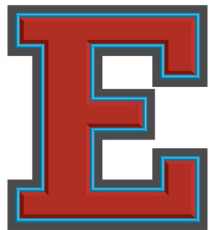

Grant Elementary was the first school

on which they began construction. He said they are currently waiting for the contractors to finish so they can get into the existing building to connect water utilities. In the meantime they are moving forward with exterior work, landscaping, sidewalks, light poles, and the parking lot.

At Kenroy Elementary, they preparing to commission the interior of the building as the cafeteria is getting its finishing touches. The landscaping on the exterior is pretty much done.

As for Rock Island, that project is running concurrent with Lee and Cascade in the

# Board Member Spotlight: Whitney Smith Construction Projects

I was raised in the Wenatchee Valley and I graduated from Eastmont High School. After high school, I trained as a montessori guide and worked in education and youth services in the Wenatchee Valley for nearly a decade. In 2014, I took the opportunity to learn a new industry – senior care. I held several roles, including administrator, before returning to work with children and families.

I love being part of the learning process! I have served on multiple parent/teacher boards, including a term as PTO president.

member as an advocate for the community, district staff, and all students.

I appreciate the positive leadership, exceptional talent, and dedication

to students we have at Eastmont. I have loved hearing the positive experiences and meeting the amazing people that make our district great. There have been some real heart-wrenching experiences too, things that have been very hard for me. Still, I am honored to represent the community,

staff, and students and I truly hope to be a balanced voice for their best interests.

Learn more about our school board members and how you can get involved at [eastmont206.org/school-board](http://eastmont206.org/school-board).

I view the roll of a board member as an advocate for the community, district staff, and all students.

I have three children, two of whom currently attend Eastmont schools and another who is in preschool. My husband Jake and I and our family love the Wenatchee Valley and enjoy many outdoor activities together here.

The idea to run for school board began with a conversation with my son and blossomed from the encouragement and help of several friends and community members. I believe very strongly in being involved in my own children's education. I believe that serving the children of our community is one of the best ways to insure positive futures. And I view the roll of a board

Whitney Smith with her family: husband, Jake; Aaron, Elizabeth and Makenzie

(continued from page 1)

timeline of completion. All three buildings have rooftops that are substantially complete. "Rock Island has been the most ongoing and complex of all the projects up to this point," he said.

In mid-May, Cascade Elementary will have its rooftop equipment done.

The interior electric is almost finished in each of the three buildings.

The high school baseball concessions stand is almost finished and although it wasn't completed in time for this season, next spring it will be ready and waiting.

Tanner said the district is currently within budget. There are always potential change orders and they could potentially still see those, he said, but at this time they have no outstanding change orders that would take the district over budget.

He said he would like to commend and thank many people for their patience throughout this massive multi-site project.

"I commend our entire staff for their patience in the upset this has caused their world," he said. "I commend our students and parents for their patience and curiosity. They all seem to be excited to get in there, occupy those spaces and use them. I commend my maintenance staff and last but not least I commend and thank our board and leadership for their faith in and support of me and my design team."

He said that when it comes to the big picture, these projects represent the district's dedication to responsible stewardship of public dollars, as well as to the community and the students the district is responsible for educating.

"I hope this represents to the community our commitment to provide the best environment for their children, who they trust us to educate. We want to utilize the resources they provide us in the best way possible."

## RUSS WATERMAN AWARDED DISTRICT 6 A.D. OF THE YEAR

Congratulations to Russ Waterman for being awarded Athletic Director of the Year for District 6! Waterman was selected by the of the North Central Washington Activities Association board on March 17. With the excellent athletic directors throughout the district, this is a great honor.

Rock Island Elemenatary has been the most complex construction project, including six new classrooms, a cafeteria and kitchen, and playground upgrades.

# Superintendent's Message: Eastmont Pride and Perseverance

Thankfully, this most interesting and challenging of school years is winding down. Students and their families will forever talk about this experience as it has not been easy. In March of 2020, when schools across the nation were directed to close and convert to remote learning, Eastmont did this in one week and was back connecting with our students via computer, phone, and with home visits through the end of the year. Both educators and families were forced to adapt to an entirely new

type of instruction and families had to adapt to a different way of living and working.

Thanks to the dedication and skills of Eastmont's educators, the best has been made from a very difficult experience. Working closely with our regional health officials, we have managed to structure a safe learning experience as we have worked to return students along with managing masks, distancing, and lots and lots of cleaning.

Rather than preparing and working through one start of school, our educators whave managed to navigate the transition to remote learning last spring, invent educate, put together half-day schedules, flipped these to every other day, and have now combined two classes into one, which is allowing all students to be full time on campus five days a week.

Unlike our region's medical professionals, working amid a serious illness is not something educators usually do. We learned about cases and cases of gloves and masks, pallets of hand sanitizer, and what cleaning a school multiple times a day takes. Learning how to do this safely has been new, different, and at times very uncomfortable.

As Superintendent, I am very proud of Eastmont's hard work and success. I thank our community for understanding and supporting our efforts, even when we were required to pause, delay, or once again change schedules for families and their students. Hopefully, as we prepare for the 2021-22 school year, we will find it to be more of the normal kind.

Sincerely,  
  
Garn Christensen, Superintendent

## DISTRICT UPDATES Superintendent Search

In January 2019, I let our board of directors know the three-year contract they were approving for me as superintendent from July 2019 to June 2022 would be my last. This is because I plan to retire as Eastmont's superintendent at the end of next school year.

To prepare for this transition, the board is reviewing proposals this month from superintendent search firms offering to help recruit my replacement. Once a firm is selected, the search process gets more involved with community input solicited in the fall and then interviews in early winter. Ideally, my replacement will be selected by the end of March 2022 and then start July 1, 2022.

## Finances

Our legislators worked hard to maintain school funding similar to what we had in place for 2019-20. Between our state funding, special federal allocations, and local levy, Eastmont will be able to meet our strategic plan goal of maintaining fiscal health as we move into 2021-22.

## Reconfiguration and Attendance Area Revisions

Over the next few months, many desks, materials, and staff will move about as Eastmont transitions over the next two years from K-4 elementary schools to K-6 schools and two 7-9 grade junior high schools. All forecasts continue to show this configuration of students in our schools will provide growth capacity at all levels for the next 5+ years for Eastmont. Please direct any questions to Executive Director Spencer Taylor by email at [taylors@eastmont206.org](mailto:taylors@eastmont206.org) or call him at (509) 884-7169.

## Campus Masks and Distancing

Complying with campus COVID rules is necessary for everyone if schools are to remain open. We are very aware many prefer to not mask or distance. Yet to remain open to provide basic instruction, athletics, and extracurricular activities we ask for your compliance whenever you are on our campuses or at events. Failure to do this may end these opportunities and require a return to remote only instruction and activities.

## Safety in a Pandemic

The requirements to operate safe schools with COVID in our community are continually updated by the Washington State Department of Health. Once confirmed by our local health officer, these changes are immediately implemented on all school levels and on all campuses.

Our weekly electronic ParentSquare Superintendent's Bulletin will stop June 7. It will be put back into use if conditions

deteriorate and we are required to reduce offerings or significantly modify district schedules. It will also continue to be used for emergencies and to inform parents when we are doing District initiated surprise safety drills on campuses.

To subscribe, please visit the Parents/Community page of our website and click on the red Emergency Text Messaging System link. You can also search Eastmont ParentSquare at [eastmont206.org](http://eastmont206.org).

## Construction Update

Construction is on budget, but is nearing that phase when things appear to slow way down. From the outside, the new additions look finished. Yet, similar to a home remodel, it is all the details inside that must be completed to ensure everything works as designed. Contractors have also experienced worker shortages this year with entire crews unavailable because of COVID illness or exposure.

Prior to being issued a permit for public occupancy, a school must go through several major inspections as well as commissioning. This process tests systems to make sure everything works as designed and all 2021 safety requirements

are being met in the new facilities.

We are already working to put together a proposal to complete the modernization at Cascade Elementary, Lee Elementary, Kenroy Elementary, Rock Island Elementary, and do athletic improvements at our secondary schools. Included will be a request for the funding needed to build a new transportation center. The land for this has been purchased on Grant Road near the airport and partial state grant funding for a cooperative shop has already been set aside for Eastmont. If approved by the Board and eventually our voters, this bond would renew current bonds at a rate similar to that currently paid by Eastmont residents.

# BACK TO SCHOOL!

From academics to extracurriculars to sports, Eastmont has successfully navigated through a year of adversity. Slowly but surely, the district is returning to a new normal with in-class learning, clubs meeting in person and interschool sports competition. Welcome back!

## BACK TO SPORTS: SHUFFLED SEASONS? WEARING MASKS? NO PROBLEM!

By Russ Alman

Russ Waterman, athletic director for the Eastmont School District, is thrilled to have sports well underway. After months of lockdowns and delays, the district has just finished its spring sports season. To accommodate the compressed schedule, seasons were shuffled so that fall sports played first, then spring, and will conclude with winter season – beginning May 17!

"It's been a challenge, but like anything else, that challenge has been accepted not only by our athletes, and our coaches, but everybody else in the valley," said Waterman.

Once the governor's office decided to allow sports to begin back in January, the Eastmont School District set in motion plans for a metered reopening of sports training and schedule planning. When competition was finally allowed, it initially was only by region, but now with the latest level of reopening, winter sports, like basketball and wrestling, will compete on a more normal Big 9 schedule.

"Overall, the theme with all the athletic directors in the area is progressive, flexible adjustment," said Waterman. The goal, he explained, is "to make things happen so that kids can be out."

The athletes have been very receptive. The district has seen 80-85 percent of its normal student participation levels. Having the seasons compressed and out of order has had minimal effect, Waterman said. "The kids have responded well. They just want to be out here, they want to compete and they want to be around their friends."

COVID safety precautions have, of course, been a priority, but Waterman has found that after so many months of dealing with the pandemic, the kids are used to it. "It's not the most ideal thing to be participating in athletics, working out and breathing heavily in masks, but it's the rules we have

to play by. The kids have complied really, really well."

Waterman said that social distancing has been the most difficult issue because most kids by nature are social and want to be close to their friends and teammates. "Kids want to be around kids and that's the part that you have to overcome."

See the interview with  
Russ Waterman online  
at this link:  
[cutt.ly/backtosports](https://cutt.ly/backtosports)

As for fall sports, Waterman is optimistic. "We're planning for next year to be more normal than abnormal, with fall season starting on time. Obviously, we're still going to have safety guidelines... as we move forward, but we're really looking forward to getting back to a more traditional sports season... and just getting back to being Eastmont."

## BACK TO THE CLASSROOM: "MATH IS COOL" AT LEE ELEMENTARY

By Dominick Bonny

Lee Elementary's Math Is Cool competition recently had its first in-person instruction session, so we joined them to learn more and hear from the students about what it's like to be back in the classroom for instruction.

"We allow them to collaborate and teach them some stuff," Sharon Hoffman, 4th grade teacher at Lee and Math is Cool coach,

Fourth-grader Myla Fletcher said that she thinks anyone her age who is interested should really join Math is Cool because it's actually fun when you get into it.

"The teacher is really nice," Myla said. "It's not that hard if you just try and practice and don't give up."

You can watch a video featuring Lee's Math is Cool's first session back in person on Eastmont's YouTube channel at the link below.

said. "But typically, Math is Cool allows the kids to work together and teach each other different skills and strategies – different ways of solving math."

It's really exciting to see the students get fired up about math and push themselves and their team, Hoffman said. There are many different activities both for individual students and for teams.

"I gave them options to stop doing certain things or reduce their workload," she said. "Not one kid ever took me up on it."

Watch more about  
Math Is Cool online at this link:

## SUMMER SCHOOL: COVID CATCH-UP FOR KIDS WHO NEED A CLASSROOM BOOSTER

We are pleased to offer a variety of programs this summer for many of our students to help overcome learning loss due to the pandemic. Grade levels listed here are the grade the student will enter next year. Eligible students will be invited. If you are interested in having your child participate, please don't hesitate to contact the program administrator. Visit the Eastmont School District webpage for additional information: [eastmont206.org/departments/special-programs/summer-school/index](https://eastmont206.org/departments/special-programs/summer-school/index)

- 1st-5th Grades Literacy Camp (June 21-July 22)
- 1st-5th Grades Migrant STEAM Academy (June 21-July 22)
- 6th-8th Grades Fun In the Sun! (June 21-July 22)
- 6th-8th Grades Migrant Arts Academy (June 21-July 15)
- 9th Grade Learning Assistance Program (June 21-July 1)
- 9th-12 Grades Credit Retrieval (June 21-July 22)

For more information, please contact your student's teacher or school office.

# STUDENTS EXCEL THROUGH UNUSUAL YEAR

Quarantines and hybrid classes didn't stop these Eastmont students from reaching new heights during the pandemic.

## “Girl Who Codes” Attends A.I. Program

By JOANNE LEONARD

Hannah Blank has been a leader in our Girls Who Code Club. She was recently accepted in a global program for artificial intelligence.

The "Inspirit AI Summer Program" will take place virtually from August 2-13, 2021. Led by the top graduates of Harvard, Stanford, and MIT, the program provides valuable knowledge on the newest AI technology.

Hannah, a junior, raised funds herself to attend this program and is looking forward to bringing back what she learns to Eastmont High School and her community. Go Hannah! We are so proud of you!

## SkillsUSA Club Builds Robot for OnShape Design Competition

By ERIC DUFFEY

CAD/Drafting skills.

The team had three hours to assemble a robot arm, create items for a desktop that the robot arm could interact with and design a robot arm effector.

The team included Gavin Spencer, William Murphy, Grant Chisholm and Jesse Hix and was advised by Eric Duffey.

A team of four students from the SkillsUSA Club competed in the National OnShape Design Competition in March. This is a competition in

## FFA Students Place 1st, 3rd in Minecraft Challenge

By MARIAH JULSON

During the fall months, FFA students are usually training for apple judging and potato grading. This year was definitely different.

The FFA sent out a Minecraft Challenge through Microsoft to allow students to solve a problem: What is going to happen to all of the animals? We saw an increase in animal populations when the world went on quarantine, and the challenge was to determine what would happen to these animals after the pandemic ends.

Three FFA students took it upon themselves to enter this contest. Riggan Schwab (10th grade), Brynn Kelley (10th grade), and Madeline Boersema (8th grade) competed in this national challenge.

Riggan and Brynn teamed up to solve the bee population problem. They were tasked with creating an environment for humans and bees to co-exist. They designed a greenhouse with different crops throughout

Riggan Schwab

Brynn Kelley

divisions. These ladies worked hard and proved that they could come up with some great solutions to world problems through Minecraft.

the year that the bees could pollinate by entering through vents in the roof.

Madeline looked at the wild horse issue. Her solution was a concept similar to a wildlife overpass.

All three ladies did amazing work with minimal advisor guidance.

Riggan and Brynn took 1st place in the nation, and Madeline took 3rd place in the nation in their age

## Grant Builds Bonds “Because of Winn-Dixie”

By LINDSAY RASMUSSEN

Grant Elementary students, staff and families all read the same book at the same time!

Through the help of our outstanding PTO, every family and staff member in the building received a copy of "Because of Winn-Dixie" by Kate DiCamillo, including 30 Spanish editions.

The goal of this project was to provide families with a literacy-based activity that they could do together while helping to strengthen our school community. Along with a copy of the book, families received a reading calendar, bookmark and at-home discussion questions designed to get families talking about reading.

Through the use of their students' Google Classroom, families were able to access

videos to listen to the story or, as encouraged, they could read aloud together.

Students were able to share a photo of themselves and their own special pet for display at school, participated in weekly trivia for class prizes and were able to add mistakes to Gloria Dump's Mistake Tree. Staff, students and families alike enjoyed this meaningful bonding experience.

nervous when she started my Digital Tools class because of her limited knowledge of computers and technology. Throughout

the quarter, I noticed her confidence level growing. When we came to an assignment where students designed the interior of a food truck, Andrea's creativity and confidence burst through the ceiling!

As a student who has only been in the United States for two years, Andrea has made incredible progress. She realized her love for interior design, which I think is one of the best things about our Career and Technical Education (CTE) programs. They allow students the opportunity to explore potential career paths while still in junior high or high school.

Andrea is a testament to how crucial our ELL and CTE programs are to our students.

# Eastmont Teachers Receive National Boards Certification

Congratulations to three of our teachers who have completed the rigorous process of becoming National Board Certified! It is the most respected professional certification available in K-12 education and a public assurance that teachers have met the profession's highest standards for accomplished practice.

Receiving the award are: Angie Velazquez (Kenroy), Vira Bowman (Sterling) and Vicki Robins (Sterling).

Angie Velazquez  
Kenroy Elementary

Vira Bowman  
Sterling Intermediate School

Vicki Robins  
Sterling Intermediate School

## P-EBT Benefits Extended

The Department of Social and Health Services (DSHS) has received federal approval to implement a second round of P-EBT for the 2020-21 school year. Families began receiving the second round of benefits in late March and will continue through the end of April. The benefits will come loaded onto a special P-EBT card mailed automatically to each eligible child.

To ensure all eligible children receive the 2020-21 P-EBT benefits, families must complete the free and reduced-price meals application, if they have not already, and make sure their current address is on file with the school district.

P-EBT benefits do not replace any child nutrition program already being offered. Students are encouraged to continue participating in grab-n-go meals at their schools, even if they receive P-EBT benefits.

The public charge rule does not apply to P-EBT benefits and will not impact immigration status.

Families who have questions about P-EBT benefits can go to [dshs.wa.gov/PEBT](https://dshs.wa.gov/PEBT) or call the P-EBT Contact Center at (833) 518-0282 between 8 a.m. and 5 p.m. Monday-Friday (except observed holidays). To check card balances or report a lost card, please call (888) 328-9271.

## Follow Eastmont on Social Media

@eastmontschools

## Low-Income ASB Waiver Begins Next Fall

In 2020, the Legislature passed House Bill 1660 – relating to the participation of students who are low-income in extracurricular activities. The purpose of this bill is to eliminate barriers and increase participation in extracurricular activities by creating equitable access to opportunities that improve academic, social and emotional outcomes.

### What is new?

This new law requires all school districts to waive attendance or participation fees for eligible low-income students.

### When does the new law go into effect?

This law was effective at the beginning of the 2020-2021 school year. However, due to the COVID-19 pandemic, no Eastmont school has charged students for any extracurricular activity fees.

### What students are eligible for this fee waiver?

All eligible low-income students in all grades are eligible. A low-income student is one who:

- Is eligible for the College Bound Scholarship Program
- Is eligible for free or reduced-price meals through the National School Lunch and School Breakfast Program

and has provided parent consent to share this information.

- Is eligible for free meals through the Community Eligible Program/Family Income Survey (only applicable for Rock Island Elementary students).

### How do I apply?

Parents can complete a household application for Free and Reduced Meals and a Consent to Share Information form. This can be done online at [eastmont206.org/departments/food-services/index](https://eastmont206.org/departments/food-services/index)

### What type of fees will be waived?

Any fee for participation in an optional, extracurricular activity will be waived for the eligible student. Examples are fees for ASB Cards, athletic/sports participation, club participation, dance tickets, drama tickets and other similar extracurricular events.

### What type of fees will not be waived?

- Fees for any curricular activity, such as for classes or educational field trips
- Fees for goods purchased, such as PE clothes or yearbook
- Fines for lost or damaged items

We will also be sharing more information about this in our 2021-2022 Back to School newsletter. More information is available at [eastmont206.org/departments/accounting/asb-financial-information](https://eastmont206.org/departments/accounting/asb-financial-information).

## FCC Implements Internet Access Subsidy

The Emergency Broadband Benefit is an Federal Communications Commission program to help families and households struggling to afford internet service during the COVID-19 pandemic. This new subsidy will connect eligible households to jobs, critical healthcare services, virtual classrooms and so much more.

The Emergency Broadband Benefit will provide a discount of up to \$50 per month towards broadband service for eligible households and up to \$75 per month for households on qualifying Tribal lands. Eligible households can also receive a one-time discount of up

to \$100 to purchase a laptop, desktop computer, or tablet from participating providers if they contribute more than \$10 and less than \$50 toward the purchase price.

The Emergency Broadband Benefit is limited to one monthly service discount and one device discount per household.

Learn more about the  
Emergency Broadband  
Benefit program at  
[fcc.gov/broadbandbenefit](https://fcc.gov/broadbandbenefit)

# District Updates Music Curriculum, Invests in New Instruments

By DOMINICK BONNY

While most of the country was in the beginning stages of lockdown and schools, businesses and public spaces were shuttered due to the pandemic, Eastmont music educators were hard at work. Over the course of the spring, all intermediate, junior high and high school music teachers were involved in a review process to examine current instructional offerings, scheduling of courses and the future needs

quality for a number of years." But many of those instruments are past their prime, and some are in such disrepair that they cannot safely be used by our students. That's why this is such an exciting time for the whole music program, Whiteman said. "These instruments and the equipment that comes with them is all an investment into the music program as a whole for many years to come," she said.

While this process has ensured a robust future for Eastmont music, the students are simply happy to be back in the classroom with whatever instruments they currently have. "Kids really love being in their music classes," Megan Clearly, Eastmont Orchestra and Mariachi Director, said. "They are so excited to be in a music class as opposed to being just at home, only hearing themselves play, and not hearing how they match with the group."

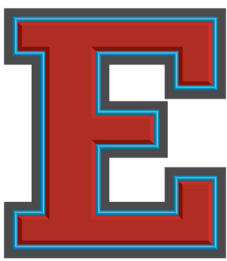

To learn more about this investment in music education and to see some of the instruments that are no longer fit for use, visit the YouTube link below.

View the video on music education at: [cutt.ly/yt-eastmont](https://cutt.ly/yt-eastmont)

Maggie Whiteman, District Coordinator of Music.

of our students. That process culminated in the decision to develop a comprehensive list of instructional materials and spend \$167,000 on instruments and upgraded equipment for students in the 6-12 grades. "The reality of the situation is that instruments have a very finite shelf life," Maggie Whiteman, District Coordinator of Music, said. "And Eastmont is so lucky to have a district that is supportive... we've had a number of instruments that are high

# Full-Time, Substitute Bus Drivers Needed!

**Bus Drivers Needed!**

Full-Time and Substitutes

Have you thought about becoming a bus driver for the Eastmont School District? We offer paid in-house training and will help you move through the steps needed to complete the process to become a certified bus driver.

**Benefits – including medical insurance and retirement – are included!**

**Full-Time and Substitute Drivers**

- Pay starts at \$21.26 per hour
- In-house training (paid)
- Work directly with kids
- Additional routes and trips available in the future

**Substitute Bus Drivers**

- On-call work schedule
- Flexible hours
- Potential to become a permanent Eastmont bus driver
