

Eastmont School District #206 Relationships, Relevance, Rigor, and Results Past Summer Agricultural Industry Activity

Eastmont Junior High and High School

- Results are from a survey of the Eastmont High School and Junior High student population.
- Other schools were not eligible for survey, seeing as most are not at the required Washington minimum working age.

Goals Achieved in Recent Years:

- Recognizing the large amount of students employed in the agriculture industry and keeping them in mind while discussing scheduling.

Areas for Improvement and Focus in the Future:

- Keep the students employed in this industry in mind when deciding and voting on future agenda items, such as changes to the year schedule.
- Create a dedicated tracking and observing effort to explore this area continuously and look for trends of the increase/decrease of students employed in the industry.
