## Notes

2019-20: Music ensembles were not able to be offered at the Intermediate school level, due to the necessity for cohorts. Music teachers taught general music classes to the entire school at both Clovis and Sterling. This will have a significant impact on the music program for the next seven years, as these early students move through the program. We are working to recover, rebuild, and plan within our Professional Learning Community.

**The music department was granted \$167,000 to purchase new instruments and equipment in order to replace old instruments and prepare for reconfiguration. On behalf of the entire music department, we'd like to thank the Eastmont School Board for their continued support of our music program!**
